## From the Editor-in-Chief

“New forms of social control may be needed to limit the indiscriminate exercise by individuals of their new powers. The possibility of extensive chemical and mind control ... will call for a social definition of restraint as well as of utilization.”

George Orwell's 1984?

No. This is the “new age” as described by Zbigniew Brzezinski, head of the U.S. National Security Council, the man presently holding the entire world hostage to his military madness.

“What makes America unique in our time is that it is the first society to experience the future ... be it pop art or LSD. ... Today America is *the* creative society. ...” This, too, is Mr. Brzezinski, the man who brought you the Iran rescue caper and the dictatorial apparatus of the Federal Emergency Management Agency (FEMA).

The above quotes from Brzezinski's *Technetronic Era* along with his recent calls for “new age” anti-materialism and mystic experiences provide some of the evidence of the National Security Adviser's role in the “Aquarian Conspiracy.”

Our Special Report this week, “Brzezinski's military madness and the new Age of Aquarius,” gives you a preview of a soon-to-be-published book which will prove the directing role of NATO and the Club of Rome in creating the “technetronic,” “post-industrial” era of drugs and zero-growth kookery, what is now being openly called the “Aquarian Conspiracy.”

The book, *Stamp Out the Aquarian Conspiracy*, is being prepared by a team of experts commissioned by Lyndon H. LaRouche and headed by Criton Zoakos with Mark Burdman, Kathy Burdman, Konstantin George, Jeffrey Steinberg and Lonnie Wolff.
