From the Editors

As we go to print, it would appear that mankind is going to make it into April without a thermonuclear confrontation—but only a fool would be reassured. The British Empire, driven into desperation by its utter bankruptcy, maintains a strong grip on the Presidency of the United States, and is pushing forward its war agenda, putting the whole world on the very edge of disaster. We have entered the “bail-in” phase which threatens the Empire’s own survival—and they will mass-kill to try to preserve their power.

Thus, the timeliness of our *Feature* this issue, Lyndon LaRouche’s “The Satan Still Operating from Inside Bertrand Russell’s Corpse.” LaRouche has crafted a scientific paper which directs our attention to the root of mankind’s current disaster—the British imperial, Zeusian method, epitomized by Bertrand Russell and the current Queen. It is that method which leads Americans to submit to stooges like Barack Obama, and to fail at making the crucial scientific breakthroughs required to take man into the future. LaRouche takes the refutation of Russell by mathematician Kurt Gödel and drives it to the necessary conclusion in *physical economy*—which takes mankind into his proper role in Space.

This issue contains two additional features of crucial importance at this time. First, the full text of Russian President Putin’s March 18 address, which gives an object lesson in sane historical and strategic thinking—unlike that from the Rumpelstiltskin-like Obama. This is not an “applause-line” show, but a serious presentation that all concerned Americans should pay attention to. The second, is our coverage of the Kesha Rogers for Senate campaign in Texas, which is taking national leadership in the fight to both remove Obama from office, and destroy the Empire’s longstanding fifth column within the U.S.—Wall Street.

Eliminating the British Empire is *the* issue, and the consequences of not doing so are updated in our coverage of the Western drought, the European theater of strategic conflict, and the Malaysian airline “mystery,” which LaRouche has identified as marking a shift by the Empire to new assaults in the Eurasian region.

Finally, we recommend our book review on FDR’s successful fight against the Wall Street budget-cutters of his day. There’s a lot to be learned by patriots today, who are focused correctly on ramming through Glass-Steagall, and impeaching Obama.
