Fiona's journey so far...

Just before Christmas 2023 Fiona wasn't keeping too well & her stomach had swollen was clear to see she was in a lot of pain & discomfort.. so on the 16 December she went to A&E to get checked over & see what was going on. They sent her for an operation on the 22nd and removed most of Fiona's big bowels some her small bowel & her right ovary. On the 8th of January Fiona was diagnosed with stage 4 adenocarcinoma cancer & given 6 months - a year to live & discharged from the hospital the next day she went to stay Sarahann & her partner William where Sarahann took on 24hrs care for Fiona making sure her medication & needs were met... while also helping her wishes & plans be put in place for her four children's future.

On the 23rd of February Sarahann was at her limit to how she could help Fiona as her pain had gotten unmanageable & she took a turn for the worst, within a week family was called & informed Fiona was on her last days and might not make it through the mother's day weekend for five days we sat by her side at the hospital till she was transferred to St Andrews hospice. Where she was surrounded by love.. As a family this is the most hardest and out of this world experience especially to happen to such an amazing person. Fiona fought right till the end and past away peacefully in her sleep on 22nd March at 08:09 with Sarahann by her side.

I can not put in to words how proud I am of all the children & all my sisters especially Fiona she has been a true inspiration had us laugh through the hurt.. memories we will cherish for life.

Mar. 15, 2024 – Melbourne, Australia – Jordan Argiriou was travelling for work when he died suddenly in his sleep on March 15, 2024.

# Jordan Argiriou - Fly High, Daddy

Demitra Papas is organizing this fundraiser on behalf of Ekaterini Argiriou.

Our names are Kat, Marianthi & Dim. We are Kathy's sisters by heart.

On Friday 15 March, Kathy's world was turned upside down when she received a phone call that would change her life forever. Kathy's husband Jordan, who had been away from home for 3 weeks travelling for work, passed away suddenly and unexpectedly in his sleep, leaving behind his loving wife and beautiful children Nikola 12, George 10 and Eleni 7.

Adding an extra layer of complexity and grief was the fact that Jordan was in a foreign country on his own, far away from his loved ones. The journey then began to bring Jordan home and close to us so that he could be laid to rest in the arms of God. This process is currently still unfolding.

As we try to process the shock of Jordan's sudden death, we desperately search for ways in which we can help this beautiful family. While we know that we can never take their grief away or bring Jordan back, we can help ease the financial burden of raising a family of three young children and the tough road and challenges ahead.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
