*It's as if the Western global elite run amok...*

*I can only describe these actions as madness.*

*I'm not talking about Gaza; it's just a clear indication of how maniacal and perverted this elite can be.*

I'm talking about triggering a nuclear war.

This has now gone far beyond the propaganda made to scare the masses during the Cold War.

The war started against Russia over Ukraine is gradually drifting towards another channel with Moscow's victory.

NATO Secretary General Jens Stoltenberg said yesterday (May 28, 2024) that the weapons supplied to Ukraine by allied countries should be able to be used to hit Russian territory.

Emmanuel Macron, who was blown from Rothschild's banker to the President of France, said today (May 29, 2024) in front of journalists, with a map in his hand, that they should bomb Russia.

Josep Borrell, who was appointed as the EU Foreign Affairs Commissioner by the USA and famous with the quotation: "Europe is the garden of paradise and other countries are wild jungles", said that EU members should not put the fear of escalation of tension ahead of Ukraine's right to self-defense.

Polish Foreign Minister Radoslaw Sikorski stated that Britain could play the closest possible role in defeating Russia's imperial ambitions and that a long-term rearmament in this

direction was necessary.

The Baltic dwarves were among the fastest in the Wild West against Russia.

Kaja Kallas, President of Estonia, a country with a population of one and a half million, said: "Russia needs to be brought to its knees!"

As a result, England, Canada, Latvia, Lithuania, Netherlands, Poland, Finland, France, Czech Republic, Sweden and Estonia allowed Ukraine to hit targets inside Russia with NATO weapons and send troops.

The orchestra conductor of this Third World War Symphony is, of course, the Neocons and Zionists who rule the USA!

Putin responded to Stoltenberg and the Baltic dwarfs from Uzbekistan:

"Representatives of NATO countries and smaller countries, especially in Europe, should be aware of what they are playing with. They should not forget that they are generally countries with very high population density and small lands. They should take these factors into account before talking about launching attacks deep into Russian territory."

This is serious this time...

It didn't attract much media attention, but it was a very important event: the Biden administration (in coordination with the UK) used proxies in Ukraine (presumably with British storm shadow or German Taurus missiles that bypassed Russian defenses relatively well with different GPS systems) launched an unprecedented attack on Russia's "nuclear umbrella" at the Armavir on Thursday, May 22, effectively blinding the Russian military's radar system that detects nuclear-armed ballistic missiles.

According to Russian nuclear doctrine, any attack on Russia's basic nuclear first alert system constitutes grounds for nuclear retaliation.

Moreover, at the time of this attack, the Russian Ministry of Defense started an exercise on the use of nuclear weapons in the country's "Southern Military District" and Belarus.

In the statement made by the Ministry,

"On the instructions of the President of Russia and under the leadership of the General Staff, the first phase of the exercise on the preparation and use of non-strategic nuclear weapons has begun in the Southern Military District."

The statement was included.

The attack was also made against Armavir in the southern region of Russia, that is, it was aimed at the coverage area of the exercise.

This alone shows how out of control the elites in the West have become.

Sergey Karaganov is a very important geopolitical expert and decision-maker in Russia. He wrote frightening things in his last article. In summary, he said: The Western oligarchs can send not only others but also its own society to the ground, Russia must use

its nuclear power if it wants peace, and the USA will not intervene if NATO countries are attacked.

Karaganov, one of the leading theorists of the Russian Security State, writes exactly as follows:

“Russia’s policy must be based on the assumption that NATO is a hostile bloc that has repeatedly proven its aggression and is actually waging war against Russia. Therefore, any nuclear attack on NATO, including pre-emptive ones, is morally and politically justified. This applies primarily to those countries that provide the most active support to the Kiev junta. Old and especially new members of the alliance must understand that since they joined the bloc, their security has been greatly weakened and the ruling elites have put them on the brink of life and death. I have written many times that the United States will not respond if Russia launches a preemptive retaliatory strike against any NATO country. Unless the White House and the Pentagon are full of country-hating lunatics ready to destroy American cities for the sake of Poznan, Frankfurt, Bucharest or Helsinki.”

Türkiye, a member of NATO and a country that owns the Bosphorus Straits, which the West covets against Russia.

Should we be afraid? I think yes, we should be very afraid!

We have entered a period in which provocations have virtually broken loose. We also know from the 1962 Cuban nuclear crisis that the country which the USA is most eager to put in front of Russia is Türkiye. Turkey should either leave NATO immediately, or if it cannot leave immediately, it should get rid of NATO/US atomic bombs on its territory as soon as possible.

### Reviews

“This book is a ‘must’ resource – a richly documented and systematic diagnosis of the supremely pathological geo-strategic planning of US wars since ‘9-11’ against non-nuclear countries to seize their oil fields and resources under cover of ‘freedom and democracy’.”

–John McMurtry, Professor of Philosophy, Guelph University

“In a world where engineered, pre-emptive, or more fashionably “humanitarian” wars of aggression have become the norm, this challenging book may be our final wake-up call.”

–Denis Halliday, Former Assistant Secretary General of the United Nations

“One of the most important books currently available. The information it contains is heart chilling, scary and absolutely accurate.”  
–Helen Caldicott, Co-founder, Physicians for the Possible

TOWARDS A WORLD WAR III SCENARIO  
The book exposes the insanity of our privatized war machine. Iran is being targeted with nuclear weapons as part of a war agenda built on distortions and lies for the purpose of private profit. The real issues are oil, financial hegemony and global control. The price could be nuclear holocaust. When weapons become the hottest export of the world’s only superpower and diplomats work as salesmen for the defense industry, the whole world is recklessly endangered. If we must have a military, it belongs entirely in the public sector. No one should profit from nuclear war and destruction.

–Ellen Brown, author of ‘Web of Debt’ and president of the Public Banking Institute
