*How were so many bad COVID policies, all lacking scientific backing, forced on many different countries simultaneously? Many Unanswered Questions Require Deep Investigation to Treat Our True Ailments.*

\*

The MP for North West Leicestershire in UK, Andrew Bridgen is one of very few parliamentarians in Western World who is seeking some accountability for the massive abuses imposed on the world population in the name of fighting COVID-19. From the inception of the manufactured COVID crisis, elected officials in most jurisdictions have been notably absent when it come to putting up protections against the assault on the public health and civil liberties of their own constituents.

The sabotage of the people by our elected representatives continues now that the time has come for some reckoning with the extensive damage being done by the COVID injections. This sabotage continues to be perpetrated by the medical establishment's reckless embrace of further untested techniques for the inducement of genetic modifications as a main method for treating disease and sickness.

Our legislatures have become zones of group think enforced by bribery and institutionalized blackmail. This propensity has made our places for public decision-making in the West into rubber stamps for the secret machinations of globally-interlocked executive branches.

Among elected officials, Andrew Bridgen doesn't have much company in his principled stand pointed against the machinations of the well-organized criminal clique he opposes. This clique has seized perversely on the manipulation of public health as the basis of a power grab to further concentrate control over wealth and power. Prominent among his few peers

in the realm of elected officials are Senator Ron Johnson in the United States and Christine Anderson in the European Parliament.

Anderson is the most prominent voice among a handful of EU parliamentarians who did not go along with the COVID jabs, the lockdowns, the mandates, and the unseemly rush to embrace the genetic modification of humans under the guise of science-based advancement in public health.

Anderson attracted much attention when she called Justin Trudeau a “disgrace to democracy” on the floor of the European Parliament. “Spare us your presence,” implored Anderson, asking Trudeau to leave the Parliament of the European Union.

From my own observations in Canada, I cannot think of one elected official in my country’s Parliament who has played a role similar to that of Senator Ron Johnson in the US Senate, Christine Anderson in the EU, or Andrew Bridgen in the Westminster Parliament in London England.

On April 18, 2024, Andrew Bridgen gave a speech to a near-empty House of Commons where he offered commentary to assist the work of the Hallett Parliamentary Committee. The Committee chaired by Baroness Hallett is studying various facets of the Covid-19 debacle. If present trends continue, the report of the Committee will probably be a whitewash.

It is naive to expect government officials to tell on themselves for their litany of bad decisions, deceptions and outright infractions of the law. Their pattern of self-preservation goes beyond the realms of parliaments and legislatures to encompass the judiciary, the media and many other core institutions that are all implicated in the overturning of society in the name of fighting COVID.

Seeking to open up the investigation to address the facts of the matter, [Bridgen explained](#),

In conclusion, the evidence is clear: these vaccines have caused deaths. Despite that, they have been described as safe and effective. However, for a proportion of people who took them, the vaccines have caused serious harm and death, and they will have raised the risk of cancer for many more. Nor are they effective. The vaccine does not prevent infection or transmission, and when the data is looked at objectively, it shows that the vaccine does not prevent serious illness or death. Those are hard truths to face, but we must face them if we want to learn the lessons of the last few years. At some point we will have to face up to all the evidence that is building. It was fairly convincing 18 months ago when I first spoke out, but it is unequivocal now.

It is time to take the politics out of our science, and to put actual science back into our politics. I ask the House to support the motion today, and for Baroness Hallett’s inquiry to open module 4 on the safety and efficacy of the experimental covid-19 vaccines. Given the evidence, I call on the Government once again to immediately suspend the use of all mRNA treatments in both humans and animals, pending the outcome of that inquiry. [Applause.]

Here is the video of the full speech with a short introduction by Dr. John Campbell:

While the British House of Commons was almost empty, the public gallery was totally full of citizen viewers deeply interested in the substance of Bridgen's presentation. One can hear those in the public gallery break into applause and cheers at the end of the Bridgen's speech. The Speaker then threatens those who cheered with removal from the public gallery.

The difference between the low attendance of the MPs and the high attendance of regular people supportive of Bridgen's position, is an indicator of how the preoccupations of elected officials are particularly out of sync these days with the preoccupations of the general public. This same gap is also very evident in the distance between the stance of most government officials and that of regular people when it comes to issues involving Israel/Palestine.

## Questions and Issues That Need to be Investigated and Answered in Dealing With the Rush of New Policies Instituted in the Name of Fighting COVID-19

It is taking some time for the general public to wrap their minds around the significance of the reality that the clot shots were not made to prevent infection by "COVID-19." Nor did the injections stop the spread of the celebrity coronavirus that was wrongfully labelled as being "new."

In the essay below, "The Midwestern Doctor" explains in 2022 the extent of some of the chicanery and dishonesty deployed to keep the general public in the dark about the total lack of effectiveness of the COVID injections.

If the injections weren't designed to stop the spread of COVID-19, what were they designed to do? This query asks a very big and important question requiring much investigation by the UK Parliament and other public institutions around the world.

We need investigations within countries and among countries into some of the core mysteries— and there are many of them— concerning what really transpired on the way to, as well as in the aftermath of, the pandemic. This pandemic was declared without a credible evidentiary basis on March 11, 2020 by the United Nations' World Health Organization.

How is it possible that so many countries came up with almost identical sets of bad policies, from the disastrous lockdowns, to the social distancing, to harmful masking, to pushing mandatory jabs that we can now see to be anything but safe and effective?

How was there so much coordination in forcing onto most of the world's nationalities the same procedures accompanied by the same explanations that pretended to be rooted in science but were clearly not? How could so much fraud have been pushed forward, followed by such aggressive cover ups to hide the fraud until this day?

Was one of the goals to bring about depopulation through the misrepresentation of bioweapons disguised as a medical cures?

Why is there still so much controversy over the nature of the massively-hyped viral threat which was falsely portrayed as a menace to the very lives of every person on earth?

Who was responsible for directing and coordinating this misdirected hype?

How are we to explain the sudden and ongoing rise in all-cause deaths in many countries.

The jump in death rates kicked in suddenly in late 2021, just as the jabbing process reached high speed.

Who or what is behind the medical establishment's still-unexplained determination to shift into procedures based on treating disease with genetic modification by means of the mRNA/lipid nanoparticle concoctions? To this day there has been no honest admission to the general public that we are being treated as lab rats for unprecedented experiments in the genetic modification of individual humans as well as of our species as a whole.

What is to be said of the development of treatments for, for instance, the fast rise of turbo-cancers seemingly unleashed through mass injections with the new varieties of untested mRNA/lipid nanoparticle concoctions?

Why was the Nuremberg Code pushed to the side when we needed it most? The Nuremberg Code is the major instrument of international law meant to protect humans from becoming the subjects of medical experiments without our informed consent. Has the sidelining of the Nuremberg Code set a precedent where there are to be no protections in using human beings as subjects for all manner of experiments without our informed consent and maybe even without our knowledge?

Much new research has exposed the very important role in the COVID debacle of the bioweapon division in the US military, an entity with copious worldwide involvements. The US Armed Forces was in charge of the original design, development, and distribution of the mRNA/lipid nanoparticle concoctions that have been forced on humanity through the enforcement of many coercive and dishonest techniques.

Among the major sources of this revelation are Sasha Latypova and Katherine Watt whose home base of publication is Substack. Katherine Watt has developed a detailed analysis of the pre-emption of US constitutional law with many layers of administrative law implemented to disguise many of the core transactions in the genesis of the injection debacle.

This debacle is creating a tsunami of negative health effects that is becoming increasingly difficult to hide. Already by the early summer of 2023, Pfizer was reporting in a 393 page document 1.6 million adverse effects. These effects were spread over 10,000 different categories of illness and injury covering every organ system.

See [this](#) and [this](#).

The aims of the quest to genetically transform human beings remain ill-explained and largely unknown. What we do understand, however, is that the gene-modifying mRNA concoctions inflicted in the name of fighting COVID-19, transformed injection recipients into organisms for the replication of harmful spike proteins. With the addition of lipid nanoparticles the clot shots could penetrate all barriers in the body causing many thousands of maladies including in the realm of blood, heart, neurological, cancer, and fertility ailments.

Certainly one of the aims of the genetic modification is the transhuman modification of some people into hominids constructed to work in harmony with a variety of robotic operations. The orchestration of the new systems of production, where modified human beings are themselves counted among the new technological products, are to be facilitated

and enhanced by Artificial Intelligence.

Seen in this light the manufactured COVID crisis must be understood as the basis of a gigantic effort to transform the biology of human life as well as the political economy of society in the most profound ways. Andrew Bridgen is becoming prominent among those calling for pulling away the blanket of obfuscation that is hiding the full extent of the secret plans underway for all humanity.

The process of opening up understanding and awareness of what is now taking place to decide every aspect of the future, including plans for altering the very genetic essence of our being, should form key questions and topics in the investigation of COVID-19 by the British parliamentary committee looking into it.

In all countries, the commitment of core figures in established institutions to look into the wrongdoing so far, suffers under enormous burdens of conflict of interest. The ability to influence our governments and the corporate world theoretically under their jurisdiction, has by and large been stolen from us. Those who are involved in directing and implementing the crimes— those that think they are benefiting from them— are not likely to blow whistles on themselves.

Institutions such as parliaments, legislatures and Congress cannot be trusted to tell the truth on the subject of the crimes within which they themselves are deeply implicated. Nevertheless, there are still some honest voices in our public institutions that we must do our best to recognize, celebrate, reference, replicate, and protect.

## Andrew Bridgen on the Power Grab Underway by the UN's World Health Organization

Recently Andrew Bridgen spoke at an event at the European Parliament concerning one aspect of the ongoing power grab that puts the UN's World Health Organization at the forefront. The WHO was the site where many of the lies and crimes of the COVID Mess unfolded and were globalized. Now the global health body is trying to implement a so-called *Pandemic Treaty* which would give the unelected body even more control over the manipulation of medical tyranny on behalf of its masters.

In the course of the COVID debacle the pharmaceutical industry clearly helped to lay out the basis and shape of the crisis for optimal exploitation. One figure, Bill Gates, stood out as the largest funder of the WHO, an organization obviously for sale by the highest bidder. Gates is a major figure in Big Pharma and especially in the vaccine area which is deeply tied up with the production of military bioweapons.

Gates is one of Klaus Schwab's corporate darlings who sings at the World Economic Forum from the hymn book of so-called "public-private partnerships." Gates controls a legion of so-called "philanthropies" such as GAVI that were instrumental in making the COVID-19 scam acquire its worldwide scale and character. Gates' ability to purchase such enormous influence over the WHO is indicative of the corruption that has taken hold of this agency.

In Bridgen's talk he emphasizes the negative implications of the effort to wheel into place a Global Pandemic Treaty centred at the WHO. If implemented, this "Treaty" would involve the uploading of sovereign jurisdiction over public health from national governments to the WHO. This transformation advances a widespread assault by globalists on national

institutions of many kinds.

Most average people have no hope of affecting global institutions often staffed by technocrats skilled at promoting global agendas. So the siphoning off of national jurisdictions to global institutions like the WHO, as well as to its closely-related WEF, represents an assault on the self-determination of national polities and their citizens.

The United Nations overall is being increasingly exposed for its internal corruptions and incapacity to intervene in the face of global emergencies like the genocide underway in Gaza and the spreading militarism in the surrounding region.

## Bridgen Hosts COVID Experts in Pow Wow at the Parliament of Great Britain

The video below records an event which Andrew Bridgen organized in a meeting chamber situated inside the Mother of All Parliaments in London England. Those that Bridgen invited to the British Parliament included some of the most illustrious skeptics covering many aspect of the worldwide antics overseen by COVID officialdom. The experts include Drs. Ryan Cole, Robert Malone, and Pierre Kory. In the video Bridgen introduces patent expert, Dr. David E. Martin.

The sound quality in this video is far from perfect. The quality of the production is probably not what it should be for an event of such historic importance in such a famous venue. This attribute, however, can be seen as an illustration that the gathering did not have the full enthusiastic backing of the support staff of the Parliament. That understanding is important to grasp.

One can be sure that if the focus had been on the government's well rewarded promoters of the official COVID agenda, the production quality would have been impeccable. Nevertheless, Andrew Bridgen was able to make the event happen. I've never seen anything like such an affair take place in the Canadian Parliament. With a couple of minor exceptions, its MPs in all political parties pretty much stick to group think when it comes to dealing with the manufactured COVID crisis initiated in earnest in early 2020.

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. —Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. —David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global*

*coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
