

# Child Deaths in VAERS — Much Higher Than Reported!

538 children died after taking a COVID-19 vaccine - documented in VAERS, but many deaths are cleverly hidden!

*Below is an excerpt from a report by Dr. Michael Nevradakis of the Children's Health Defense, entitled "[Number of Children Who Died After COVID Shots Much Higher Than VAERS Reports Indicate, Analyst Says](#)."*

Fetal deaths and miscarriages, sudden cardiac arrest, sudden death and suicides — these are some of the causes of death listed in reports submitted to the Vaccine Adverse Event Reporting System ([VAERS](#)) on children who received a COVID-19 vaccine.

Yet, these reports do not count toward the total number of child deaths listed in VAERS data because the victims' ages are officially listed as "unknown," according to VAERS analyst [Albert Benavides](#).

Benavides [reviewed the data](#) for his website, [VAERSAware.com](#), and provided links to many of these "[unknown age](#)" [child death reports](#) on his site.

[VAERS data](#) as of May 31 lists 197 child deaths following [COVID-19](#) vaccination.

However, Benavides told [The Defender](#), "There are approximately 418 properly documented deaths in children below age 18. There are an additional approximate 120 kid deaths where the summary narrative states 'child, infant, neonate, baby.'"

Benavides identified these "unknown age" reports using an algorithm and "manual intervention."

## My Take...

I have been able to confirm a lot of these deaths myself.

[Here are 182 post COVID-19 vaccine CHILD DEATHSs with "Age" left BLANK.](#)

It's actually shocking how many VAERS reports of CHILD DEATHS there are, that don't have the child's age entered in the proper location.

WHO VigiAccess reports over 200,000 Pediatric Adverse Events after taking a COVID-19 Vaccine:

Child Deaths after COVID-19 Vaccine in the literature: (at least 4 child deaths in peer-reviewed papers with autopsy)

## Abstract

Carditis in childhood is a rare disease with several etiologies. We report a case of infant death due to pericarditis and myocarditis after the mRNA vaccine against COVID-19 (COVIDmRNAV). A 7-year-old male child received the first dose of the COVIDmRNAV and presented with monoarthritis and a fever non-responsive to oral antibiotics. The

We report the autopsy results, including microscopic myocardial findings, of 2 teenage boys who died within the first week after receiving the second Pfizer-BioNTech COVID-19 dose. The microscopic findings are not the alterations seen with typical myocarditis. This suggest a role for cytokine storm, which may

**Write-up:** passed away shortly/died suddenly; This is a spontaneous report from non-contactable consumers from Pfizer - vaccination. The information is included in an online magazine publishing an article. A 12-year-old male patient received the second dose of bnt162b2 (COMIRNATY), via an unspecified route of administration on unspecified date as DOSE 2, SINGLE for COVID-19 immunisation. Medical history included cardiovascular disease. Concomitant medications were not provided. It was reported that the patient passed away shortly after his second coronavirus vaccination on unspecified date. An autopsy was performed. The translation of the article: "In PRIVACY country, a 12-year-old boy dies, two days after being inoculated for the second time. A 12-year-old boy from the PRIVACY, died shortly after being vaccinated against the coronavirus. Initial evidence suggests that death could be related to vaccination. He passed away shortly after his second coronavirus vaccination, apparently suffering from serious cardiovascular disease for some time. This was stated on Thursday by a spokeswoman. According to the preliminary autopsy protocol, experts from PRIVACY considered the death likely to be due to vaccination. Because rumors had surfaced on social media, the district is now making the case public, a spokeswoman said. The boy reportedly suffered from previous illnesses. A few days ago he had received the second dose of the Biontech / Pfizer vaccine. Two days later, the boy died suddenly. Due to the close temporal connection, the health department ordered an exam. According to the preliminary autopsy protocol, experts from PRIVACY consider death likely due to vaccination. The final autopsy report is still pending. With regard to the above diseases, according to forensic experts, another cause cannot be completely ruled out. The report is expected shortly, a district spokeswoman said. "We are facing a particularly tragic case here," said the head of the health department in the PRIVACY". From a purely statistical point of view, serious side effects of vaccines that cause death occur very rarely, but the affected family is 100 percent with all the cruelty." He expressed his condolences to the family members. According to his own information, they registered a total of five suspected cases of this type until the end of September, related to the death of children and adolescents at intervals of two to 24 days after vaccination with the Biontech / Pfizer product. According to information from the (district name provided, redacted due to data privacy), the district administrator has withdrawn the mobile vaccination teams from the schools. They had been on the road for days to vaccinate children and young people." As reported: "registered a total of five suspected cases of this type until 30. September, related to the death of children and adolescents at intervals of two to 24 days after vaccination with the Biontech / Pfizer product. According to them, at least three of the adolescents had serious medical history." As reported: "The child died short after the second vaccination with the Biontech/Pfizer vaccine." The outcome of the event was fatal. No follow-up attempts are possible; information about lot/batch number cannot be obtained. No further information is expected.; Reported Cause(s) of Death: passed away shortly/died suddenly

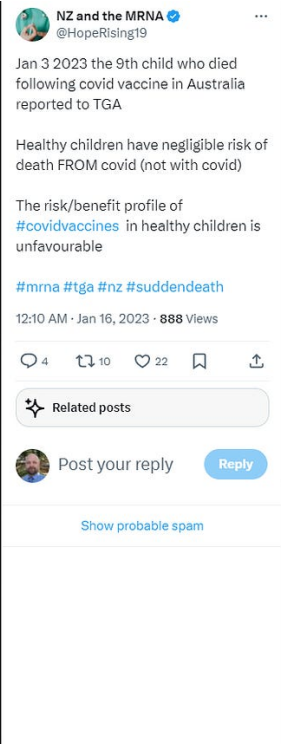

Australia - 9 Child Deaths in TGA Database

3 January 2023 at 12:36 pm

**9th Australian Child Death Reported TODAY 3.1.2023 on TGA Database of Adverse Event Notifications following C-19 Jab (Case No. 762472 - 20.12.2022):**

1. 616124 age 17 (male reported on 02.09.2021 viral myocarditis, Comirnaty Pfizer).
2. 647663 age 14 (female 20.10.2021 brain injury, cardiac arrest, Spikevax Moderna)
3. 695048 age 15 (male 15.01.2022 Adverse event following immunisation, AEFI)
4. 719838 age 7 (male 11.03.2022 Cardiac arrest, Comirnaty Pfizer)
5. 724023 age 9 (female 25.03.2022 Cardiac arrest, Comirnaty Pfizer)
6. 733723 - 10 (male 06.05.2022 AEFI Pfizer Comirnaty Batch No. FP1430 - Dose 2)
7. 734187- 5 (male 10.5.22 Cardiac arrest eosinophilia myocarditis FP1430 - Dose 1)
8. 744306 - 14 (female 11.7.2022 immunisation reaction, Spikevax Moderna).
9. 762472 - 17 (female 20.12.2022 Arrhythmogenic right ventricular dysplasia (cardiomyopathy - abnormal heart rhythms), Escherichia sepsis (infection), vomiting.

Out of 133,746 single suspected reported cases (with 956 deaths) on the DAEN (C-19 jabs) up to 20th Dec., 2022, there are 5,596 reported cases on children aged less than 5 up to 17 years old, who suffered medical reactions, including the 9 deaths of children aged 5 to 17 (5 boys and 4 girls). As of 3rd Jan. 2023, the 9th Aussie child death, 17 year old female is reported on the TGA DAEN (Database of Adverse Event Notifications). **SAVE THE CHILDREN - WAKE UP**

## Conclusion

538 Child Deaths in VAERS.

9 Child Deaths in Australian TGA

>200,000 Pediatric COVID-19 Vaccine Injuries in WHO VigAccess.

Health Canada, [Canada's Chief Public Health Officer \(CPHO\)](#) (Dr. Theresa Tam), Alberta Health Services, all claim "0 CHILD DEATHS" after COVID-19 Vaccination.

How many child deaths are "too many"?

How many dead children is it going to take to get these COVID-19 mRNA Vaccine products taken off the market?

## The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

*“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”*

### Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon*

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia*

*In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig*

*Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac*

*A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom*

*loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin*
