A 14-year-old schoolboy has tragically died after collapsing during a game of football.

Corbin Jones was playing with friends on the grounds of Larkhall Academy in South Lanarkshire, **Scotland**, before he suddenly fell ill and passed out. Emergency crews rushed the boy to the Queen Elizabeth University Hospital, where he was sadly pronounced dead a short time later on Saturday, May 11.

Police say there are no suspicious circumstances surrounding his death, but are treating it as unexplained. Andy Smith, Larkhall Academy head teacher, said: "Our school community is shocked by the tragic death of Corbin Jones on Saturday, 11 May. Corbin was a very popular pupil, with a wide friendship group across his own, and other, year groups. He was equally popular with staff due to his kind and caring nature, and his enthusiasm for life."

One parent said Corbin's friends had done all they could to help him. They posted on social media that Corbin has been remembered as a "very popular pupil" who was "happy, cheerful and polite", **the Daily Record reports**.

May 2, 2024 – Singapore – 14 year old Isaac Loo collapsed after 10 min during a 2.4km run and died suddenly from “swelling of the brain.”

SINGAPORE - A mother decided to donate her 14-year-old son's organs after he was declared brain dead over the weekend, after three weeks in a coma.

Woodlands Secondary School student Isaac Loo collapsed during a 2.4km run on May 2 around 8am and was taken to KK Women's and Children's Hospital.

The Secondary 2 student had collapsed after running for 10 to 20 minutes, said his mother Fiona Soo, 51. The doctors said he had heart problems, causing a lack of oxygen in his brain, she added.

He was declared brain dead on May 25. The official cause of death was cerebral oedema, which means swelling of the brain.

"After 72 hours, the doctor already told me to be prepared because the best-case scenario was that he would be in a vegetative state, and the worst was death," the accounts and finance officer told The Straits Times on May 28.

"I couldn't accept it at first as a mother. I shared the news with everyone, and we prayed for him, hoping for a miracle."

After the second week, she was approached about organ donation. While she originally agreed to do so, she changed her mind nearer to the date.

Apr. 3, 2024 – Schnecksville, PA – 15 year old Talia Shumway died unexpectedly at her home on April 3, 2024 She was enrolled in a nursing program at LCTI (Lehigh Career & Technical Institute).

Talia P. Shumway

OBITUARY

Talia Patricia Shumway, 15, of Schnecksville, passed away unexpectedly on Wednesday, April 3, 2024, at her residence. Born in Allentown, June 5, 2008, Talia was the daughter of Don B. Shumway, Jr. and Marcie M. (Hallman) Shumway. Talia was a 10th grade student at Parkland High School and also enrolled in a nursing program at LCTI. She was employed part-time at Salad Works, Allentown.

Birth: June 5th, 2008

Death: April 3rd, 2024

Talia's vivacious nature and infectious smile inspired anyone who was fortunate enough to cross paths with

her. Her care and compassion were vividly evident through her love of animals. She was a mom to her turtle, Allister, and her dogs: Benny, Jilly and Whitney Jane. Talia also enjoyed volunteer work that she did with her Grammy at the Emmaus Lioness Lions Club. She will be sadly missed by her loving family and loyal friends.

Sofia Forgione

The family of a North Belfast teenager have paid tribute to "such a thoughtful little girl with a huge heart".

Sofia Forgione, 13, passed away on April 2, with what is believed to have been Sudden Death Syndrome, leaving her family, friends and community heartbroken.

The Ardoyne child was a Year 9 pupil at Mercy College, and was described as "a talented student who will be greatly missed".

Speaking to Belfast Live, Sofia's aunt Lauren said: "Sofia passed from SDS where she went to sleep and didn't wake, absolutely devastating news and still coming to the terms of the shock of our little girl gone, it still doesn't feel real at all, hard to comprehend to say the least.

"Sofia was quiet to most people as they would say she was a quiet wee girl, but to her family and friends she was the comedian of the room, she loved a laugh, making people laugh and always making sure everyone around her was having fun and if you were around her I can guarantee you'd be laughing.

Mar. 12, 2024 – Moline, IL – 13 year old Sampson Sprague died of a massive brain bleed.

"Time passes too quickly anymore, it's OK to take more time and enjoy yourself," wisdom of Sampson, 13.

Sampson Sprague, 13, of Moline, IL, passed away at home on March 12, 2024, of a **massive brain bleed.**

Sam was born September 17, 2010 in Silvis, the son of Katherine Betcher and Christopher Sprague.

Sam loved tennis, Legos, Pokemon and playing Minecraft (he and his dad spent countless hours building their Minecraft Realm). He enjoyed reading Rick Riordan books, and writing about the characterization of Greek gods as well as various dragon types. He loved his dog Duke, his kittens Moose and Scout, and pretty much all animals. He was an avid observer of nature—pointing out the moon, colors of sunsets, trees. He played trombone in band and jazz band and was an honors student at John Deere Middle School. Always social, he loved being with friends and family, volunteering, and didn't mind being dragged to meetings, art openings and galleries with his mom. He enjoyed rock hounding, Texas hold'em poker and playing D&D with his dad. He also loved watching YouTube videos of guys playing video games, which is kind of a mystery to his parents. He was a genuine, special soul giving in life and continuing to give to others after his death, possibly helping 200 others by being a tissue donor. Wise beyond his years, he said many memorable quotes, like when he was seven, "Just because I'm scared, doesn't mean I don't want to do it." He will be missed by everyone who knew him. His parents are forever grateful of this short time with him and so proud of their son, Sampson Sullivan Sprague.

Feb. 24, 2024 - Spain - 15 year old soccer cadet Alejandro Padín, died suddenly on Feb. 24, 2024.

El fútbol base asturiano despide a Alejandro Padín, cadete del Condal

El Ayuntamiento de Noreña ha convocado un minuto de silencio mañana, lunes, en los jardines del Consistorio

El fútbol base asturiano está de luto desde el sábado por el fallecimiento de **Alejandro Padín Cercadillo, 'Ale'**, jugador de la categoría cadete del Condal, vecino de Pañeda y alumno del instituto de Noreña. Al joven, nacido en 2009, se le había detectado un tumor en la garganta.

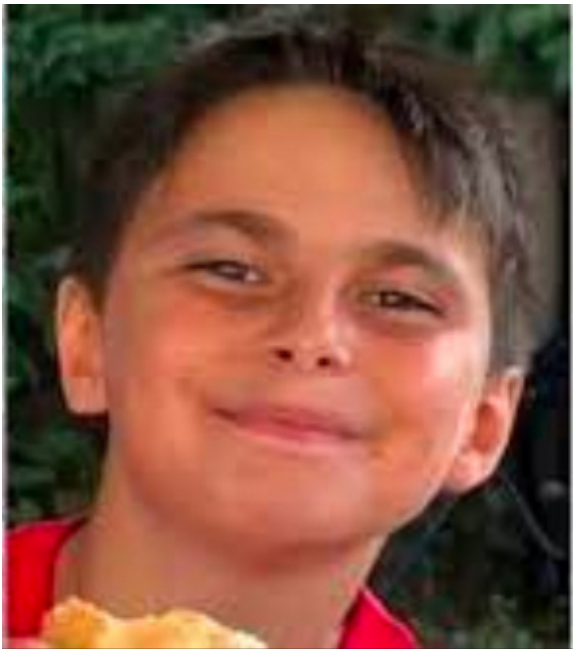

Su club, en el que llevaba jugando desde prebenjamines, confirmó la triste noticia a través de un comunicado, en el que expresaba «todo nuestro cariño y apoyo a la familia, amigos y compañeros» en un «día muy triste para el condalismo. Estamos de luto». El fútbol asturiano transmitió también su pesar a la familia y los amigos del joven 'Ale'. Lo hicieron clubes de fútbol, como el **Sporting de Gijón**, **Real Oviedo**, **Lenense Proinastur**, **Ceares**, **Tuilla**, **Nalón**, **Asunción** y **Covadonga**, y también la Asociación de Futbolistas Españoles.

La capilla ardiente está instada en la sala 1 del Tanatorio Meana de Pola de Siero. El funeral será el lunes, a las 16 horas, en la iglesia parroquial de Noreña. El Ayuntamiento de Noreña, que también mostró sus condolencias a la familia, ha convocado un minuto de silencio mañana, lunes en los jardines del Consistorio para «recordar al joven condalista», en cuya esquila puede leerse: «Buscadme por Estepona que allí estaré con el Lamborghini».

El equipo luce este domingo un brazalete negro en honor al jugador y guardará un minuto de silencio en su nombre.

My Take...

On May 10, 2021, FDA amended use authorization for Pfizer COVID-19 Vaccine to include children ages 12-15.

Here are some characteristics of these recent 56 deaths in children ages 12-15.

20 were athletes:

- 9 soccer players
- 4 football players

STAY
+ relat

Smoke from co
causes disrupti

Accident betwe
motorcycle lea

EDP warns abo
residential elec

Sedu prepares
for teachers an

- 3 basketball players
- 2 runners
- 1 gymnastics
- 1 cheerleader

Causes of death:

- 10 cardiac arrests
- 5 died in sleep
- 5 died from cancer
- 4 brain bleeds
- 3 infection (?)
- 1 stroke
- 1 aortic dissection

Activities when sudden death occurred

- 5 were playing soccer
- 4 died at home
- 3 died at school, 1 died on school bus, 1 died in car on way home
- 2 were playing football
- 2 were playing basketball
- 2 were running (up to 5km)
- 2 were playing outside
- 1 was in phys ed class
- 1 was swimming
- 1 was doing gymnastics
- 1 was recording tiktok videos

Cancer deaths are increasing in this age group.

Damaged blood vessels and clots are still a major issue 3 years into the rollout. Brain bleeds are far too common, there should be none in a sample of this size.

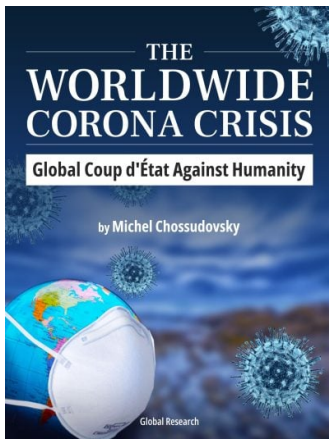

Soccer remains the deadliest sport, followed by football, running and basketball.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
