The world is at a dangerous crossroads.

"The United States and its allies have launched a military adventure which threatens the future of humanity.

Major military and covert intelligence operations are being undertaken simultaneously in the Middle East, Eastern Europe, sub-Saharan Africa, Central Asia and the Far East. The US-NATO military agenda combines both major theater operations as well as covert actions geared towards destabilizing sovereign states.

America's hegemonic project is to destabilize and destroy countries through acts of war, covert operations in support of terrorist organizations, regime change and economic warfare."
