The powers-that-be behind the banning of “Plandemic” and the disparaging and slandering of Dr Judy Mikovitz are obviously afraid of something that will expose them for planning something evil. Tyrannical corporate forces, starting with Google and YouTube and the CDC and Big Pharma and the MSM have kicked into high gear before any more of us ‘Sheeple’ are allowed a chance to view some unwelcome truths that are considered dangerous to the powers-that-be.

There have been any number of pro-over-vaccination trolls that are being well-compensated by Big Pharma/Big Vaccine corporations (that have ruled the world for awhile now) by recommending the banning of the documentary. Examples include any number of similarly-ignorant, shameful lobbyist/troll “journalists” that write for newspapers like the Times, the Post, the Herald, the Tribune, the Daily News, the Journal, the Chronicle, the Register, the Observer, the Sentinel and virtually every other Big Pharma/Big Vaccine-controlled major media outlet all over America and the world.

I urge readers to watch the Pandemic clip before it has been banned

Dr Kohls is a retired rural family physician from Duluth, Minnesota who has written a weekly column for the Reader Weekly, Duluth’s alternative newsweekly magazine since his retirement in 2008. His column, titled Duty to Warn, is re-published around the world.

He practiced holistic mental health care in Duluth for the last decade of his family practice career prior to his retirement in 2008, primarily helping psychiatric patients who had become addicted to their cocktails of psychiatric drugs to safely go through the complex withdrawal process. His Duty to Warn columns often deals with various unappreciated health issues, including those caused by Big Pharma’s over-drugging, Big Vaccine’s over-vaccinating, Big Medicine’s over-screening, over-diagnosing and over-treating agendas and Big Food’s malnourishing food industry. Those four entities can combine to even more adversely affect the physical, mental, spiritual and economic health of the recipients of the medical treatments and the eaters of the tasty and ubiquitous “FrankenFoods” – particularly when they are consumed in combinations, doses and potencies that have never been tested

for safety or long-term effectiveness.
