[Global Research Wants to Hear From You!](#)

On Monday May 20th, with the UN's International Criminal Court ([ICC](#)) prosecutor issuing arrest warrants for Israeli Prime Minister Benjamin Netanyahu and his Defense Minister Yoav Gallant along with three Hamas leaders for war crimes, and President [Joe Biden](#) again repeating, "What's happening is not genocide. We reject that," still insisting that Zionist Israel is not engaging in genocide against Palestinian people, we live in an increasingly dangerous world. This comes just days after a failed assassination attempt on an EU national leader, and then the sudden death of Iran's president and foreign minister, today's outrageous tempo of disturbing world events is extremely ominous.

The fact is, every single day now we are waking up to more perilously foreboding signs of endgame collapse, imminent world war between top nuclear powers, political assassinations, and yes, a polarized, seemingly out-of-control world, chaotically growing exponentially more unstable and violent by the week. This unending stream of unfolding incidents signify escalating global destabilization, the globalists' deliberate controlled demolition of our planet gone mad. None of this is by chance nor by accident. It simply reflects the systematic breakdown by diabolical design of all life as we've known it. Destructive omens of accelerating upheaval and potential mass death appear near daily now, coming in large shocking doses.

Slovakian Prime Minister [Robert Fico](#) was nearly murdered last Wednesday May 15th. He is only one of two EU national leaders friendly to Russia opposing [military aid](#) to Ukraine, and the only national leader alive in this world [investigating](#) Pfizer and the powerbroking co-conspirator culprits behind the COVID kill shot holocaust, determined to publicly hold them criminally accountable.

The three African leaders and last elected Haitian leader were all murdered several years ago for vehemently taking bold stands against the globalist agenda to commit human genocide with its bioweapon Big Pharma non-vaccine poison. Of course no accident that one of the largest globalist controlled news outlets [Associated Press](#) would a few hours after the Fico shooting, claim “Slovak authorities [are] saying he [the failed assassin] acted alone in a politically motivated attack.” Like clockwork, every time the embedded Establishment deceivers purport their “lone gunman” trope, instantaneously they reach their standard criminal coverup conclusion. Yet facts so often prove otherwise as the CIA and Mossad are notoriously guilty in scores of assassinations and political coups. JFK, RFK, Martin Luther King all readily come to mind.

A mere month and a half ago, writer Simon Tisdall’s *Guardian* [article](#) entitled “Once a relic of the cold war, political assassins are back with a licence to kill” open with:

In today’s lawless world, political assassination is the new growth industry – and anyone, famous or not, is a potential victim. Government-sanctioned killings are proliferating, with Russia, Israel, Iran and India leading the pack.

Tisdall was referring to the Israel’s April Fool’s Day assassination of high-ranking Iranian generals in the Iranian consulate in Damascus, Syria, clearly a violation of international law. This in turn led to Iran’s April 13th restrained “payback,” launching the world’s largest drone and missile attack as Tehran’s first time ever striking precise military targets directly on Israel’s soil, hitting spy and military posts in the Negev Desert, specifically minimizing civilian casualties yet sending the clear message that Israel’s air defense system is in fact penetrable, despite the Zionist bravado lies hyping its infallible “Iron Dome.”

Within four days this last week, the world has witnessed assassination, albeit a failed attempt on the life of a rare EU national leader friendly with Russia, followed just four days later by what may be successful assassinations of another Russian ally in Iran's president and foreign minister. On Monday May 20th, all the headlines reported Iran's 63-year old President [Ebrahim Raisi](#), his 60-year old Iran Foreign Minister Hossein Amir-Abdollahian and six other high-ranking Iran officials died the day earlier on Sunday May 19th, in an apparent helicopter crash in northwestern Iran's East Azerbaijan province near the city of Varzaqan. Others killed include governor-general of East Azerbaijan province Malek Rahmati and representative of the Supreme Leader in East Azerbaijan Mohammad Ali Ale-Hashem.

Despite today's instant GPS technology pinpointing specific location with a black box recording, reported heavy fog made search efforts difficult locating the crash site for forty rescue teams, which is suspicious in and of itself. [AP](#) stated that the crash occurred "on the side of a steep mountain" 12 miles south of the Iran-Azerbaijan border.

Instantly Israel denied any involvement, and of course the so-called harsh flying conditions at the time of the accident afford Israel's notoriously automatic "plausible deniability" out. [Reuters](#) stated:

An Israeli official, who requested anonymity, told Reuters it was not involved in the crash.

Israel's track record for credibility in truth-telling has repeatedly been atrocious, especially as of late. Few nations or people trust Israel because this country possesses among the worst reputations for nonstop deception, not unlike its #1 Liar-in-Thief illegitimately occupying the White House and his treasonous DC regime.

The genocidal Israeli government has not disclosed its official response to the death of Iranian leaders. Yet Israel's current Minister of Heritage [Amichay Eliyahu](#), reacted to Raisi's death posting an image of a wine glass on X with the caption "Cheers" underneath. Avigdor Lieberman, former defense minister and leader of the opposition right-wing Yisrael Beiteinu party, told *Ynet* news that Israel "will not shed a tear for the death of the Iranian president."

Despite alleged bad weather, two other Iranian helicopters apparently carrying lesser important Tehran officials both made it safely back to their destination after attending a ceremonial event opening a joint dam project with Azerbaijan President Ilham Aliyev. But is this helicopter crash truly an accident or is it another Israeli terrorist attack targeting the top leaders of Zionist Israel's archrival enemy Iran?

Iran's Supreme Leader Ali Khamenei since 1989 declared five days of mourning while placing Republic of Iran's second in charge, Raisi's deputy Mohammad Mokhber as acting president until an election is held within 50 days.

The assassination against Iran's leader Ebrahim Raisi would certainly not be Israel and its allies' first deadly political hit. The bottom line is that over the last half decade alone, Israel and friends have been directly responsible for numerous targeted assassinations against both Iran's top political and top military leaders.

Image: General Qasem Soleimani

It was under [Israeli firster](#) Donald Trump's presidency, bought and paid for by [Israel first money](#), that his then Secretary of State, fellow West Point graduate a decade my junior and former CIA Director Mike Pompeo on January 3rd, 2020, launched his CIA drone strike on Iran's most senior military official, General Qasem Soleimani. Mike Pompeo is another boldface liar the day after he executed Soleimani, spouting off on [CNN](#) as a feather in his cap, smugly claiming the Iran general was working with the Middle Eastern terrorists when in fact Soleimani was in actuality eliminating them, effectively defeating US supported terrorist proxy groups like ISIS in both Syria and Iraq.

America's war against Iraq based on another boldface US lie of Saddam Hussein's nonexistent WMDs was yet another US Empire expansionist imperial war, where again US as the globalists' battering ram bully was clearly on the wrong side of history. Gen. Soleimani assisted Iraq in ultimately removing the US military as occupiers in Iraq delivering another humiliating US war loss in 2011 only eclipsed almost a decade later by Afghanistan debacle.

For years, the US has flagrantly violated Iraq, Syria and Afghanistan's national sovereignty rights, deploying US military occupiers on the ground against the will and rights of both the Baghdad and Damascus governments, not to mention Kabul's. These nations know that the given US excuse used to this day to justify its unwanted presence – removing the so-called vestiges of Islamic State terrorists from the region, is an absolute lie since it's both the US and Israel that have been primary creators and longtime supporters of their proxy ally terrorists in the US manufactured War on Terror operating for decades throughout the Middle East. Prior to ISIS, the US and Israel teamed up with Gulf State monarchies to [create al Qaeda](#) and Bush ally the bin Laden family to pull off the inside US-Israeli job 9/11, deliberately committing treason to kill 3,000 Americans to launch their preplanned “new Pearl Harbor” to take down seven nations in five years. It all known history now.

As Iran's most popular general and second most powerful national leader behind only the Supreme Leader Ali Khamenei at the time of his 2020 assassination, General Soleimani was chiefly responsible for not only successfully weakening both the [Taliban](#) but also virtually eradicating the US created, financed and trained Islamic State terrorists that had grown to

become the world's largest terrorist organization, as well as other US supported jihadist militant groups operating inside Syria and Iraq.

It was in late December 2021 that Israel's then recently retired head of military intelligence, Maj. Gen. [Tamir Hayman](#), admitted that Israel assisted the United States in Gen. Soleimani's assassination, gloating:

Soleimani's assassination is an achievement, since our main enemy, in my eyes, are the Iranians. Two significant and important assassinations can be noted in my term.

The other assassination Hayman boasted of illustrates how Israel historically uses its divide and rule strategy to control both Palestinian groups, Hamas in Gaza and Palestinian Authority (PA) in West Bank. Hamas was secretly created and [financed](#) by Netanyahu to pit Hamas against the PA, and as long as the Palestinian groups are fighting against each other, remaining weak, more easily controlled, they enabled Netanyahu's longtime policy forbidding the [two-state](#) solution. In this case, Hamas accused the Palestinian Authority intelligence operatives of informing the IDF of the specific Gaza location of Palestinian Islamic Jihad commander [Baha Abu al-Ata](#) for another Israeli airstrike assassination in November 2019. Still another Israeli below-the-belt, heavy blow delivered to Iran a year later on November 27th, 2020 was the [assassination](#) of Iran's leading nuclear scientist Mohsen Fakhrizadeh-Mahavadi.

Then came another lethal Jewish State airstrike assassination last Christmas Day 2023 in a Damascus suburb, targeting yet another Iranian General [Sayyed Razi Mousavi](#), the senior adviser in Iran's Revolutionary Guard Corps (IRGC) credited with coordinating the military alliance between Syria and Iran. Then little more than a week later on January 3rd, 2024, the US and Israel undoubtedly coordinated its Middle East proxy ally ISIS to yet again cold-bloodedly massacre [84 more Iranian civilians](#), simply for honoring the loss of their heroic popular general, attending Soleimani's memorial service on his fourth year death anniversary. That terrorist act was perpetrated to deliberately ratchet up wider tensions in the Middle East, once again brutally targeting Iran as victim.

Israel aggression toward Iran has never been countered by Tehran retribution killings, though more than justified. Just last month on the Muslim holiday Eid al-Fitr, Israel engaged in more targeted killing of Hamas political leader Ismail Haniyeh's three sons and four of his grandchildren. [Haniyeh](#) explained that Israel intentionally targeted his family at Shati refugee camp they visited relatives over the holiday. Targeted assassinations have been a protected way of life, seemingly reserved only for Jewish State "chosen ones." No other nation-state even comes close to racking up such high frequency premeditated, heinously violent crime, though US would undoubtedly be the runner-up.

It didn't take long for speculation to surge into overdrive, pointing to Israel as the most likely guilty suspect. According to [DCM Global's](#) video released Monday May 20th, anonymous sources within the Tehran government claim that the helicopter pilot that transported Raisi and his staff to the event with Azeri President Ilham Aliyev inside Azerbaijan near its Iran border, was not the same pilot that transported them back to Iran for its accidental "hard landing." The video further alleges that the second pilot was a Mossad agent. By the time search and rescue teams arrived at the alleged crash scene, the helicopter had been completely burned.

Fueling the high speculation over the sudden deaths of Iran's president, foreign minister and

other prominent officials, also come reports that a US [Air Force C-130](#) aircraft suspiciously arrived in Azerbaijan near the time of Raisi's helicopter departure. Conjecture centers around possible electronic warfare may have been used to jam the president's aircraft to malfunction and ultimately cause the crash. Iran states that it purchased the Bell 212 helicopter in the [early 2000s](#). The US would be extremely familiar with its avionics, potentially rendering Raisi's copter in Azerbaijan nonfunctional. For many decades this Bell 212 model helicopter has maintained an excellent safety record, unlike Boeing aircraft in recent years. Thus, it is highly unusual for it to be involved in an accident, much less with a national president from a major regional power.

The timing of this fateful incident could not have come at a more intensely volatile moment during today's growing pre-World War III conflict buildup. With the elderly 85-year old Supreme Leader Khamenei about ready to retire, again the timing here appears highly suspicious and troublesome. Raisi was considered the leading candidate to take over for Khamenei, much like he had served as president from 1981-89 under his aging predecessor Supreme Leader Ruhollah Khomeini.

With Israel playing a prominent role in murdering so many Iran's top political as well as military and scientific leaders, Israel's systematic targeting killing has gone on unchecked without consequence for three-quarters of a century. If strong conclusive evidence that Israel killed Raisi does emerge, will this latest, most egregious crime of them all also go unpunished? If history keeps repeating itself, then it will. But today we are living through extraordinary times calling for extraordinary, unprecedented measures. And radical change is in the air. Iran, the Muslim world and indeed the whole world is on the brink of revolt against the globalists' Old-World Order-turned NWO. Growing opposition amidst so much public exposure of these blatant, unmasked crimes against humanity are reaching the point of no return.

It has been frequently reported that Iran and Azerbaijan have maintained [strained relations](#) in recent years. Despite Azerbaijan and Iran both being Shiite Muslim neighbors, it hasn't stopped Caspian Sea oil-rich Azeri dictator Ilham Aliyev's [relations](#) with [Israel](#) to grow increasingly cordial and cozy. After all, it was the Ashkenazim Jewish State that made all the difference supplying Azerbaijan the strategic [drones](#) that enabled it for the first time to tactically defeat Armenians on the battlefield in defense of their final Nagorno-Karabakh war lasting 45-days during late 2020. This action in turn set up Baku's "lightning strike" in Nagorno-Karabakh last year, removing virtually all the remaining 120,000 Armenians uprooted from their rightful ancient homeland as war refugees fleeing for safety to the Republic of Armenia.

This symbiotic relationship between "odd fellows" Israel and Azerbaijan has Aliyev publicly [supporting](#) Israel's war against Hamas today.

Thus, for Iran's leader to attend a political event inside Azerbaijan with a proven untrustworthy despot so chummy with Iran's chief nemesis Zionist Israel, may have been a mortally fateful mistake. And with Iran's Foreign Minister Amir-Abdollahian of probable Armenian descent, it automatically renders this ill-fated trip all the more treacherously suspect. [Aliyev](#) has made no bones about erasing Armenians off the face of the earth, just as his unholy Khazarian mafia bedfellow Benjamin Netanyahu erases all Palestinians off the face of the earth. These two war criminal dictators Bibi and Ilham are two rotten peas from the same rotten pod.
