No matter who becomes the next Speaker of the House in Congress, life is going to be a LOT harder for Joe Biden, the Democrats, Zelensky, and the US puppet régime in Kiev.

By bringing down House Speaker McCarthy yesterday 3 October 2023, Rep. Matt Gaetz has created a historic turning point, not just for the USA, but for global politics.

The Democrats, the Neocons of the uniparty including Mitch McConnell, have all suffered a devastating blow from which they are not likely to recover. This changes the position of what the US can do in the world, and it severely endangers the reelection chances of President Biden.

Have a short look at *what* the man of the day, Rep. Matt Gaetz, demands what a new House Speaker must do – or face ouster like McCarthy did:

- **Substantial** reduction in Federal spending, even in temporary funding bills.
- Willingness for the House of Representatives to **use** “the power of the purse”.
 - In clear text: Willingness to **close down US government as part of negotiations**.
- Willingness to **subpoena Hunter Biden** in the Joe Biden corruption inquiry.

In addition, transparency on US spending bills by demanding separate spending bills per item, and not massive “omnibus” bills which link all sorts of non-spending issues into a dark box of uncontrollable spending and other measures.

The prospects of this are devastating.

- Ukraine may very well go down (soon !) for lack of Western funds and lack of new Western weapons supplies, as it will probably NOT receive any significant new US spending – ever.
- The US government faces high chances of a complete financial shut-down in 6 weeks when the recent stop-gap funding bill expires.
- Biden's reelection chances are melting, because the corruption inquiry against President Biden will gain substance for a real impeachment as the House subpoenas Hunter Biden and unearths more evidence.

No need to say, that Biden losing reelection will be equal to Trump being reelected – with all the unfathomable consequences *that* will have not only for Ukraine, but for the breakdown of NATO and all Transatlantic relations as well. All on top of a fundamental transformation under Trump of what the USA is and how it functions.

Unbelievable, that the House Democrats were stupid enough to let all these imminent and big risks to their domination happen by *not* simply abstaining from the vote on the House speakership and letting Speaker McCarthy continue on a majority of Republican House votes.

All these big changes coming to the US and the world are very much due to one single individual, Matt Gaetz (Rep.Fla.).
