[March 16, 2024](#) - FRANCE - 13 year old soccer player collapsed during an U15 game in Sens in l'Yonne. Clement S collapsed on the bench after leaving the field.

A 13-year-old boy died as a result of a malaise during a football match in the Yonne

During a U15 encounter in Sens in Yonne, the young man complained of chest pain. He couldn't be revived. At this stage, no investigation is opened.

Terrible drama. On March 16, 2024, a 13-year-old died **following a malaise in a football game**. When'une meets U15 in Sens in l'[Yonne](#), the young man s'is complains of **pain in the chest** and then asks to go out. At the exit of the field, Clement S' collapses on the bench.

A cardiac massage is performed quickly by educators before the arrival of firefighters and Samu. « It did not able to be resuscitated », notes the district of L'Yonne on Facebook.

He was reportedly the victim of a heart attack

Following the discomfort, Clement is taken urgently to the'hospital of Sens where his death will be pronounced in the middle of' afternoon. He had a heart attack, reports [France Bleu Auxerre](#).

No investigation is open to date, says the parquet of'Auxerre. Medical investigations are currently underway.

March 12, 2024 – Sioux City, IA – Briar Cliff University Student Janay Geng-Meier who was on a soccer scholarship, died suddenly from pulmonary embolism.

Janay Geng-Meier 2005-202... more

My name is Gabrielle Parks, and I am the Head Women's Soccer Coach at Briar Cliff University, and Janay's coach in college. We have started this fundraiser on behalf of Briar Cliff University. The past few days have been a blur, and we are heartbroken with the untimely passing of Janay from a blood clot in her right lung. Janay was loved by many and was the funniest person any of us had ever met. She was a light in all of our lives.

As Janay ventured over to the United States to play college soccer, we would love to help Janay's family out with the costs of transporting Janay back to her native Canada, and other costs associated with her funeral and memorial. We want to help ease the burden of saying goodbye to a daughter, sister, and friend of many.

On behalf of the women's soccer team, multicultural club and Briar Cliff University as a whole please help us in providing Janay's family with just a little bit of relief so they are able to grieve and remember Janay in the best way possible, with laughter, and a lot of Canadian National Anthem singing.

Janay Geng-Meier 2005-2024

We are heartbroken to inform you of the sudden passing of one of our own, taken way too soon.

From an early age, Janay had a passion for the sport. Her talent and skill could change the game.

Off the field, we were gifted with a vibrant soccer sister full of fun and laughter. Her smile could brighten every room she entered.

We will always cherish our time with you. Rest in peace sweet Janay.

March 4, 2024 - Nottinghamshire, UK - 35 year old Chris Hunter, a soccer referee, died suddenly on March 4, 2024 from cardiac arrest.

FA referee Chris Hunter dies suddenly aged 35 as colleagues pay tribute

Story by Joel Moore • 1w • ⌚ 1 min read

Tributes have been paid to a former [Nottinghamshire](#) referee after his sudden death aged 35. Chris Hunter officiated across the non-league football pyramid, including in the National League North, and was a season ticket holder at Nottingham Forest.

Announcing his death on Wednesday, March 6, Nottinghamshire FA said its "deepest sympathies" went to his family. "A tribute to Chris will follow in the coming days," it added.

The PGMOL, the body responsible for refereeing games in English football, said it was "deeply saddened" by Mr Hunter's death. "Our thoughts are with his family, friends and the refereeing family," it wrote. "Rest in Peace, Chris."

Ivory Coast footballer Archange Defrignan Mondou has tragically passed away.

Mondou, 19, played for HamKam in the Eliteserien, which is Norway's top flight.

The midfielder, nicknamed Achilles, moved from the Ivory Coast in April of last year and initially joined HamKam's second team, making three appearances and scoring one goal.

But tragedy struck on Tuesday when Mondou was found unresponsive by emergency services at his flat in Hamar, 60 miles north of Norway's capital Oslo.

In a statement, HamKam said: 'It is with great sadness that HamKam Football has received the news that Achilles has passed away at the age of 19.'

'He was found in his apartment. Our warmest thoughts are with his family and relatives.'

'The cause of death is currently unknown.'

Feb. 27, 2024 – Drumchapel, Scotland – 18 year old soccer player Liam Stevenson died suddenly on Feb. 27, 2024.

Teenage Rangers fan dies suddenly as tributes paid to 'talented footballer'

Liam Stevenson, from Drumchapel, sadly passed away on Tuesday, February 27.

March 7 (Reuters) - Sweden midfielder Kristoffer Olsson is suffering from multiple small blood clots on both sides of his brain as a result of an extremely rare inflammatory condition in his brain vessels, the player's club Midtjylland said on Thursday.

Olsson has been in hospital and put on a ventilator after the 28-year-old fell unconscious at home last month. He was admitted to Aarhus University Hospital where the club said he had undergone several scans and tests in recent weeks.

"The diagnosis matches the thesis on which the medical specialists have so far worked and treated Kristoffer," the Danish club said in a statement.

(CNN) — Swedish soccer star Kristoffer Olsson has been hospitalized and placed on a ventilator, seemingly due to an “acute disease related to the brain,” according to a statement from his team FC Midtjylland on Tuesday.

The Danish side said the 28-year-old lost consciousness at his home on February 20 and was taken to a local hospital in Aarhus, Denmark, where he continues to receive treatment.

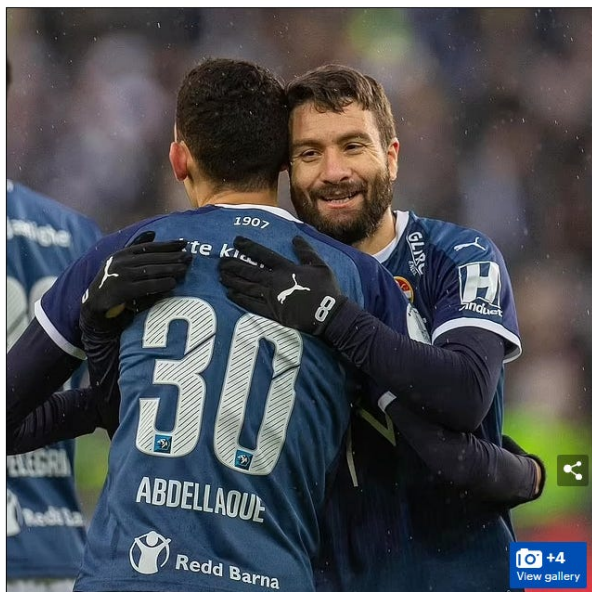

Olsson, who has played 47 times for his country and once represented English Premier League club Arsenal, has been surrounded by immediate family and club staff since being admitted to hospital, the team added.

“Everyone at FC Midtjylland is of course deeply affected by Kristoffer’s sudden illness and our thoughts and full support go out to Kristoffer and his family,” the club said in the statement.

The club said it released the statement after rumors started spreading online about Olsson’s continued absence from the team. FC Midtjylland also asked for privacy to allow the midfielder and his family to focus on recovery.

FC Midtjylland said on Wednesday that training had been closed to media and fans as the club had been so affected by what had happened to Olsson.

Feb. 12, 2024 – 39 year old professional soccerplayer Mounir Hamoud suffered a cardiac arrest & died on his FIRST DAY as a coach at former side Stromsgodset (Norway) He died on Feb. 12, 2024.

He died on what was due to be his first day working with Stromsgodset, who mourned his death in a statement

MOUNIR HAMOUD HAS PASSED AWAY

It is with great sadness that Stromsgodset has received the message that Mounir Hamoud has passed away at the age of 39. He died suddenly this morning of cardiac arrest.

PUBLISHED: 10:56 EST, 12 February 2024 | UPDATED: 11:11 EST, 12 February 2024

A former Norway player has passed away at the age of 39 following a cardiac arrest.

Mounir Hamoud retired in 2019 after a 15-year career as a professional in his homeland, starring for the likes of Lyn, Bodo/Glimt and Stromsgodset.

He was also capped 15 times by his country at youth level, playing seven times for the under 21 side, though never for the Norway senior team.

Keen to stay in football post-retirement, Hamoud had picked up a job as an 'elite player developer' with former side Stromsgodset having worked as a circuit manager for player development in NFF Buskerud for the last four years.

He died on what was due to be his first day working with the Eliteserien side, who paid tribute to the former defender on their club website.

DRAMMEN, Norway (AP) — Norwegian soccer club Strømsgodset said Mounir Hamoud, a former forward who played for the country's youth teams, died after suffering cardiac arrest.

Hamoud, who was 39, died Monday on the morning of the first day of his new job in player development with Strømsgodset, the team said Monday.

Hamoud, a Moroccan-born forward, spent the final eight seasons of his 15-year playing career at Strømsgodset before retiring in 2019. He played for Norway's Under-18, Under-19 and Under-21 teams and was selected once for the country's senior team but didn't get off the bench in a 1-0 win over Germany in Dusseldorf in 2009, the Norwegian news agency NTB said.

Wycombe Wanderers will pay tribute to the memory of youth team player Adam Ankers after he fell ill during a game and died in hospital on Monday (5 February).

Adam was a 17-year-old season ticket holder at Wycombe Wanderers and played for the club foundation's under-19s team in partnership with Henley College.

The teenager was a student at the college and a dedicated Wycombe fan who went to the club's games alongside his dad, brother and sister.

Adam's dad Alastair announced the sad news of his son's death on social media.

He wrote: "Yesterday we lost my son Adam, who passed away after playing football, the sport he loved.

"We love him so much and the loss is devastating. He will always be with us and never forgotten."

Man, 21, dies just days after being told he has cancer – family urges others seek help

Gerald Green, 21, initially hid the cancer symptoms from his parents, but when his mum Paula discovered he'd been coughing up blood, she immediately rushed him to hospital

By Gemma Ryder & Ryan Fahey, News Reporter
17.01.1 Feb 2024

A young man has died just days after being diagnosed with cancer.

Gerald Green, 21, from Paisley in Renfrewshire, was experiencing back pain in the days leading up to his death. Initially, he thought he simply needed a new bed, but then started vomiting and became more concerned. He had hidden the symptoms from his parents, but his mum Paula immediately rushed him to the Royal Alexandra Hospital on January 19 after learning he'd been coughing up blood.

Medics discovered he was severely anaemic and he was put through for surgery to drain his kidney. While on the operating, he stopped breathing and doctors were forced to put him in an induced coma in the desperate hopes of keeping him alive.

He woke up, but doctors then told the family he had an incurable form of cancer that was spreading rapidly. He was transferred to St Vincent's Hospice for palliative care on January 30. Within hours of arriving, he tragically died. His devastated family is now urging other young people not to ignore serious changes to their bodies.

Gerald's cousin Ailley Colquhoun told the **Record**: "When my auntie Paula found out Gerald had been hiding the fact he had blood in his sick, she immediately took him to hospital. He was obviously scared when he hid it so we're urging anyone who has any symptoms like his to get checked out immediately, before it's too late. There was nothing they could do for Gerald, the cancer was just everywhere. It was in his bones and in his blood. Our whole family were with him when he died. He told us he loved us and he said goodbye. Those were his last words. He passed away a few hours later."

Ailley added: "It was so quick, it's hard to take in that he's actually gone. We're all in shock." As the family come to terms with the loss of Gerald, who was a carer for his dad Gerry following a stroke, a **fundraiser** has been set up to help them pay for his funeral and give him the "send off he deserves".

Ailley continued: "Gerald was the youngest in the family and he was Paula and Gerry's only son. He was a funny, cheeky lad. He loved his **dogs** and St Mirren FC. He was always up for a laugh and very easy going. He never took life too seriously. Everyone always says how polite and kind he was. So many people have been paying tribute to him have said he was a great footballer too. He played all through school but had given it up in recent years when he became a carer. He had his whole life ahead of him but he was unaware of what was going on until last week. It's just unbelievably sad."

Jan. 28, 2024 – 41 year old Panama soccer player & striker Luis "Matador" Tejada who helped Panama qualify for its first ever World Cup in 2018 died suddenly on Jan. 28, 2024.

FORMER Oxford United player Stuart Gray has died at the age of 50.

Gray, the son of former Leeds United and Scotland winger Eddie Gray, died at a hospice in Yorkshire after being diagnosed with cancer last year.

The U's said in a statement: "Everyone at **Oxford United** was saddened to learn of the death of our former winger Stuart Gray.

"The former Celtic player joined Oxford from Rushden & Diamonds in August 2005, to link up again with manager Brian Talbot.

"He made 11 appearances for the U's, with his final game coming in February 2006, before injury ended his professional career.

"Stuart had been bravely fighting Cholangiocarcinoma, a very rare and highly aggressive form of cancer. Our thoughts are with his family and friends."

Gray played 32 times for Celtic after coming through the club's youth ranks. He also played for Greenock Morton on loan, before going on to play for Reading, Rushden & Diamonds, and United.

Celtic said in a statement: "Everyone at Celtic is deeply saddened by the news that former Celt, Stuart Gray, has passed away after illness at the age of 50.

"The thoughts and prayers of everyone at Celtic Park are with Stuart's family and friends at this very sad time."

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project “destroys people’s lives”. He provides a comprehensive analysis of everything you need to know about the “pandemic” — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

“My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the “deadly” COVID-19 “vaccine”. This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument.”

Reviews

This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —Dr. Mike Yeadon

In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky’s book is a rock upon which to sustain our fight. –Dr. Emanuel Garcia

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden “plandemic”; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. —Peter Koenig

Professor Chossudovsky exposes the truth that “there is no causal relationship between the virus and economic variables.” In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –David Skripac

A reading of Chossudovsky’s book provides a comprehensive lesson in how there is a global coup d’état under way called “The Great Reset” that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. -Edward Curtin
