

WEF - UN Guterres's Apocalyptic Climate Change Talk. UNSG Lies About Fossil Fuels Causing Climate Change

An Exchange with PressTV on UN Secretary Guterres Doomsday Projection of Climate Change

PressTV: *The UN Secretary-General Antonio Guterres skewered oil firms on Wednesday (19 January) for having "peddled the big lie" about their role in global warming, telling the World Economic Forum that they should be held accountable. Addressing a room full of the world's business and political elite, Guterres drew a parallel between the actions of oil companies and those of tobacco companies that have been hit by huge lawsuits over the adverse effects of cigarettes.*

"We learned last week that certain fossil fuel producers were fully aware in the 1970s that their core product was baking our planet," Guterres said.

He was referring to a study published in the journal Science that said ExxonMobil had dismissed the findings of its own scientists on the role of fossil fuels in climate change.

Could you please comment on this?

Peter Koenig: Sorry, for not being available at the time of the live-interview. Your audience may want to know about the UN Secretary General's Guterres' lies about fossil fuels causing climate change. Mind you, Guterres got the UN job only because he is gullible and corruptible, and a puppet to the rulers of the West, foremost the US.

He is drumming the drums of the ruling elite's narratives – be it covid, or climate or energy crisis; or whatever else may hit the crisis-board.

Fossil fuel causing climate change is a scientifically proven lie. No trillion dollars can undo it.

Just We, the People, by standing up in masses for the truth.

For now and for at least the next 50 or more years the world can unlikely live without fossil fuels. Unless there is a major breakthrough on capturing for example solar energy on a different dimension than through highly polluting solar panels, for example via photosynthesis, what the plants do.

Research on this has been going on for decades. And maybe the “solution” has been found, patented, and the patent possibly bought or blocked by the oil magnates. It wouldn’t be a first.

Today, 30 years after the first Environmental Conference in Rio, the United Nations Conference on Environment and Development (UNCED – June 1992), still about 85% of all energy used on the planet stems from fossil fuel. Thirty years ago, hydrocarbons accounted for about 90% of all energy consumed.

This proportion has hardly changed in the last 20 to 30 years. And it won’t drastically change for quite some time.

Unless they succeed in massively decimating the 8 billion world population.

That’s what the genocidal eugenists Bill Gates, Rockefeller, Soros *et al*, have in mind.

The climate changes all the time, as the universe is not static.

What by far most influences the climate on earth, is the sun. Solar activities are to more than 95% responsible for climate variations on Mother Earth.

Humanity contributes less than 0.5% to CO2 gases.

And of these less than 0.5 %, about two thirds or more stems from the military, from wars. By far most of the ongoing wars and armed conflicts comes from the WEF Davos war-monger masters, i.e., the US and NATO, and the NATO-embedded European Union (EU) nations.

Western media are paid not to talk about the military CO2 emissions.

Plus, a final and maybe most important point. Without CO2 there would be no life on earth. Trees, plants – hence, our food production, needs CO2 to grow. CO2 is good for the world, for our lives.

Plants feed on CO2, then emit oxygen which humans and animals, all sentient beings, need to breathe for life. Without CO2, no oxygen.

The oceans of our planet are sponges for excess CO2. They are responsible for the CO2 equilibrium. If there is too much CO2 in the air, the oceans absorb it, and in turn they release it when it is needed.

A lot of this balancing act has to do with “seasons”... depending on when the plants and trees absorb more or less CO2...

Mother Earth is perfect. We don’t need a WEF and fake elite “science”, a bought and corrupted science. Or as John Kerry, former US Vice-President, and Joe Bidens Environmental Envoy to the WEF claims, that the “*WEF Davos Elite are like ‘Extraterrestrials’...*” intending

to save the planet. See [this](#).
Hilarious.

Please don't save our planet, Mr. Kerry.

The world does not need a puppet Guterres, to command the ignorant around and to scare the world with apocalyptic predictions.

We don't need a UN system, compromised to the western billionaires and financial giants.

What they want, what the WEF is all about, is a One World Order, with total control over every soul of this planet, plus total control of all the globe's resources.

They won't achieve it. We will resist.
